

Dr. Matt Lewis to Speak at Tampa's Thyroid & Autoimmune Summit

Seven of South Florida's leading experts in the detection and treatment of chronic illnesses are set to deliver talks next week as part of the [2nd Annual Tampa Thyroid & Autoimmune Summit](#). And representing BioDesign Wellness Center will be our very own **Dr. Matt Lewis, DACBN, CFMP®**.

The summit runs from 10 a.m. to 3 p.m. on Saturday, Jan. 26, at the Root Cause Medical Clinic in North Tampa. Besides Dr. Lewis, the daylong event features other esteemed area functional medicine practitioners, including:

- Dr. [Jordan Axe](#)— Root Cause Medical Clinic
- Dr. [Beata Carlson](#)— Natural & Cosmetic Dentist
- Dr. [Vincent DePasquale](#)— National Stem Cell Institute
- Dr. [Shahida Choudhry](#)— Pharmacist
- Kristin Burton— [Central Florida Medical Thermography](#)
- Sarah Bingham— Nutritionist & [Fast Food Healer](#)

According to recent research, nearly 5 percent of the nation's population over the age of 12 suffers from hypothyroidism, with the thyroid cancer incidence per 100,000 people in Florida being 12.1 at last check. As for autoimmune diseases, there are

between 80 and 100 different types, with an untold number of Floridians suffering from such immune system malfunctions.

That's why talks such as the one Dr. Lewis will be delivering next week are so important. With close to half of everyone in the U.S. either living or working in a water-damaged building, it's little wonder so many of us are similarly living with compromised immune systems. Which makes Dr. Lewis' talk on Chronic Inflammatory Response Syndrome (CIRS) and its connection to Hashimoto's Thyroiditis very timely.

HOSTED BY THE ROOT CAUSE MEDICAL CLINIC
